SCOPE AND PROGRAMME

The jubilee 20th International Symposium on Separation Sciences will cover recent advances in the theory, instrumentation and methodology of all types of separation techniques, including new types of stationary phases, particulate, monolithic and miniaturized capillary and chip-based fluidic separation media, hyphenated and multi-dimensional separations, method development including chemometric approaches, quality assessment, sample preparation, with emphasis on novel application methods, especially in food, biomedical and environmental analysis. The scientific programme will include plenary and keynote lectures and poster sessions. The quality of the programme is an imperative for the success of the symposium. The following eminent scientists have so far agreed to present lectures on the latest achievements in separation techniques at the 20th ISSS in Prague: D. Berek, T. Bolanča, B. Buszewski, V. Coman, D. Corradini, F. Foret, M. Gertsruk, V. Kašička, I. Klebovich, J. Lehotay, W. Lindner, M. Novotný, P. Sandra, P. Schoenmakers, F. Švec, I. Vovk. The goal of the 20th ISSS symposium will be advancing the knowledge of separation sciences and promoting exchange of new ideas on the academic and the industry level, providing new forum for collaboration and networking. During the symposium, you will have opportunities to exchange valuable practical experience and to find solutions for your particular analytical problems. The future of separation sciences depends on young scientists, who will be offered registration at special reduced fee to facilitate the participation at the symposium. During the symposium, the best poster competition will be organized.

After the 20th ISSS, the 14th International Nutrition and Diagnostics Conference INDC 2014 will be held at the same venue. INDC 2014 (www.indc.cz) is an international forum for scientific discussion focused on understanding the relationship and connections between nutrition and clinical diagnostics. You are invited to attend this conference as well at convenient fees.

CALL FOR PAPERS

We invite you to submit your abstract by May 1, 2014, through the symposium website on: <http://www.iss2014.cz/en/registration/abstracts/abstract-registration-form/>

Recommended size for posters: 90x120 cm (width x height).

EXHIBITION

Vendors will have the opportunity to exhibit their instrumentation, accessories, chemicals and the literature on various separation techniques.

OFFICIAL LANGUAGE

The official language will be English and no simultaneous translation will be provided.

WELCOME TO PRAGUE

Prague is not merely a historical gem. It is also a vibrant and pulsating European city, whose endlessly long list of superb theatres, museums, galleries and clubs help to make up the unique character of this city of a hundred spires. In combination with the world famous Czech beer and gastronomic delicacies, it is no wonder that it is one of the most visited cities in the world.
